

Welcome to the first cross-border workshop in project SBPIN

Theme: Blue Growth

April 18-20th at Krinova in Kristianstad, Sweden

The project SBPIN (South Baltic Public Innovators Network) aims to prepare local actors to participate more actively in cross-border networks and projects. The theme of this first workshop is Blue Growth with focus on:

- Water quality
- Drinking water issues
- Coastal protection (storm water)

During this workshop we will also discuss cross-border collaboration and methods to support innovation in participating organizations.

Target groups

Officials and politicians in public administration working with Blue Growth and/or the identified challenges in the municipalities in Northeastern Skåne (Sweden), Køge (Denmark), Naestved (Denmark) and municipalities associated with the Association of Polish Communes of Euroregion Baltic (Poland).

EU-coordinators, international strategists and developers working with cross-border network and cooperation in the above mentioned municipalities.

Location

Krinova, Stridsvagnsvägen 14, Kristianstad. www.krinova.se
