

22.09.2021 - 13:30 to 15:00

In 2020 and 2021 Task Force Supporting Youth Employment and Well-Being has concentrated on three themes: STEAM (Science, Technology, Engineering, Arts, Math), attractiveness of the vocational education and basic skills. The idea behind the theme-based approach is that concentrating on certain issues would make cooperation and creation of common goals and projects easier, as we have already seen during these two years.

We have been, like everyone else, affected by Covid-19 and during the last year and a half all our activities (seminars, workshops, meetings) have been held online (last live event was STEAM study visit to Tallinn on February 2020).

Now we are inviting you to plan post-Covid activities on the meeting that will be held online 13.30-15.00 (CET) on 22 September 2021.

Registration deadline is 15 September. For registration use the link below:
