

# Smart Inclusive and Healthy City

**UBC General Conference  
October 2015**

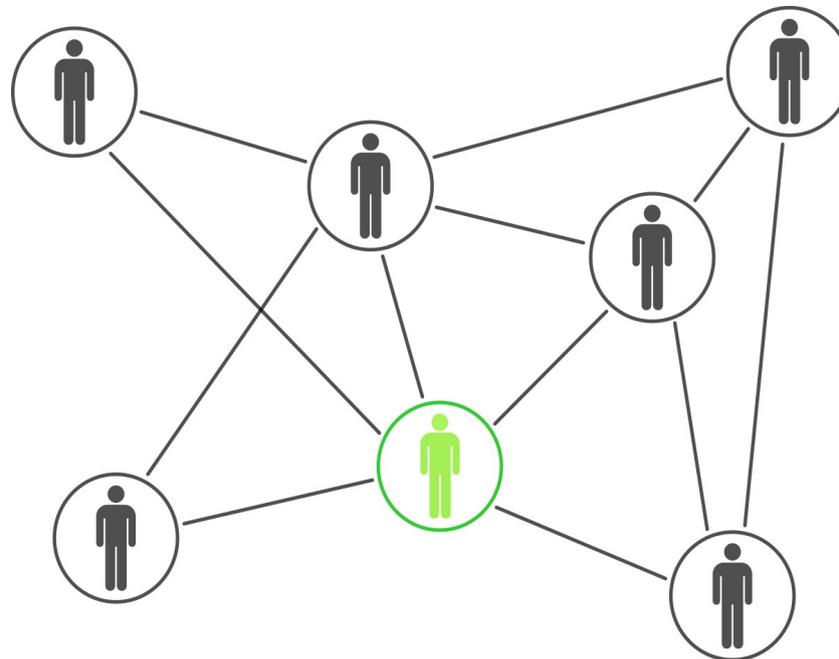

# Smart Inclusive City (1)

## Well connected

With various info channels

With many dialogue spaces

With spaces for building relations (round the corner)

# Smart Inclusive City (2)

## Well harmonised

Well mapped (resources and capital)

With resources flowing mechanisms

Well planned (short and long perspective)

With an improvisation space and skills

# Smart Inclusive City (3)

## **Well empowered**

Collectively visionaired

With participation on daily basis

Socially co-designed

With touchable influence feeling

# Smart Healthy City

With **prevention as a fundamental**  
(smart investment)

With **pro-health habits** (smart education)

Where **treatment means reintegration**  
not isolation

Where **dependency is balanced with**  
**engagement**

Mind-body-soul approach

# **UBC Inclusive and Healthy Cities**

## City of Gdynia
