

Characteristics

Diameter of cleaning pipes	150 - 1000 mm
High pressure sleeve length	100 m
Maximum water pump pressure	200 Bar
The volume of the sludge tank	6 m ³
Pump performance	211 l / min
Max. suction depth	6.5 m ³
Tank lifting angle	60 deg
The volume of the sewage tank	5 m ³
Tank filling speed	6 -8 minutes
Vacuum pump performance	900 m ³ / hour
The rate of devastation of the tank by gravity	35 m ³ / hour
Wheel formula	6 x 4

General director
