**Trusted friends of Ukraine -
international partners**

The municipal utility "Mykolaivvodokanal" expresses to you the respect and addresses with the following.

Due to the war in Ukraine, Mykolaiv is left without a centralized water supply, as the destroyed water intake on the Dnieper River is in the occupied territory of the Kherson region. In addition, the city is in a critical situation due to the emergency condition of reinforced concrete sewer collectors. A large number of nets are completely worn out, pipes are clogged with silt, bottom sediments and stones. That is why there is a constant flooding of residential buildings with sewage, sewage leakage, deteriorating sanitation. These and other factors are catastrophic for city residents and citizens of Ukraine in general.

Given the above circumstances caused by the war in Ukraine, as well as the emergency condition of the company's equipment, wear and tear of networks and special equipment, we ask for your assistance in the transfer on a non-refundable basis in the form of humanitarian aid combined - canal jettings & vacuum - water tankers trucks(add.1).

Thank you in advance.

General director

Borys DUDENKO
